## In My Own Way: An Autobiography

In this new edition of his acclaimed autobiography &#151; long out of print and rare until now &#151; Alan Watts tracks his spiritual and philosophical evolution from a child of religious conservatives in rural England to a freewheeling spiritual teacher who challenged Westerners to defy convention and think for themselves. ### How Obama Embraces Islam's Sharia Agenda

While Americans focus on terrorism, a more insidious Islamist threat to our way of life lurks. It is the agenda of sharia, Islam's authoritarian legal and political system. The global Islamist movement aims, in the words of the Muslim Brotherhood, to destroy the West by sabotaging it from within. Its principal strategy is not mass murder but the exploitation of Western freedoms and the insinuation of sharia principles into Western legal systems. In this Broadside, Andrew C. McCarthy shows how the sharia agenda has found a friend in the Obama administration. President Obama is actively abetting the Islamist platform: promoting sharia in his foreign policy, easing enforcement of laws that stop Islamic "charities" from diverting funds to jihadist terror, and even sponsoring a United Nations resolution that would stifle First Amendment rights.

### Islam and the Arab Awakening

One of the most important developments in the modern history of the Middle East, the so-called Arab Spring began in Tunisia in December 2010, bringing down dictators, sparking a civil war in Libya, and igniting a bloody uprising in Syria. Its long-term repercussions in Egypt and elsewhere remain un
