The Way of the Shaman

This classic on shamanism pioneered the modern shamanic renaissance. It is the foremost resource and reference on shamanism. Now, with a new introduction and a guide to current resources, anthropologist Michael Harner provides the definitive handbook on practical shamanism – what it is, where it came from, how you can participate. "Wonderful, fascinating... Harner really knows what he's talking about." CARLOS CASTANEDA "An intimate and practical guide to the art of shamanic healing and the technology of the sacred. Michael Harner is not just an anthropologist who has studied shamanism; he is an authentic white shaman." STANILAV GROF, author of 'The Adventure Of Self D

What others say about this ebook:

Review 1:

Can all these negative reviewers be quiet?. We are all indigenous to Planet Earth and thus you may think that just because you came from a tribe that happens to have been in the Americas for whatever period of history you are somehow superior in your connection. I come from the indigenous peoples of Europe, the Witches and Druids... Those practices and the blood of the people that come from that heritage are just as connected to Earth and Cosmos as yours is. That being said, I LOVE THIS BOOK!!!

I first came upon it as a 15 year old in rural n. Wisconsin and with some other people there we did the journeys, the exercises and it provided some really deep and wonderful experiences that were also ALOT of fun.

Now 23 years later I find myself back in the saddle with Witchcraft and Shamanism and this book is the first thing I am reaching for. I noticed this Villolo guy offers a one month intensive for 12000!!!! A shame since if we are going to heal the hoop we need more than just shamans in the 1%

Highly recommend this book, and also you should get at least one of his drumming tapes if you don't have a friend or group to get drummed by.

Review 2:

Worth every penny ..great information.

Review 3:

This was not a new book as advertised.

Review 4:

Excellent book

Review 5:

I've been doing alot of rock divinations as described in this book so far they've been arcuate and fun though I never found a two fist size rock I saw a fox face which I interpreted to mean I'm clever, a bird quickly flying away for you'll leave here fast, and a ghost that seemed to imply that I'd be scared. I didn't like that they suggested possessions-to let the spiris of plants and animals inhibit your body and influence your mind. All aroud good read. I read it twice and can't wait to google some of the many famous anthropologist and indian tribes mentioned. Also this book had alot of great resources like where to find good meditation drumming.
