What others say about this ebook:

Review 1:

Great introduction to this form of sensation play. The author has really studied his subject.

Review 2:

This was an interesting book on the use of hot wax and all it entails to use it safely on the skin. A simple pleasure for sensation play something I enjoy immensely?. This little book tells you how to do it safely and how to do it with proper care for all involved.

Review 3:

Got this for my husband as he expressed an interest in waxplay and I don't want to get burned! It is a good little primer but very basic. Would be nice if they had included sources for appropriate candles.

Review 4:

This is a pocket book. Totally not worth the price, but informative if you have never played with wax. If I knew it was so rudimentary I would not have bought it.

Review 5:

The booklet is very brief but does contain a fair amount of information and technique. The booklet was very inexpensive so it is worth it.
