**Nests, Eggs, and Nestlings of North American Birds: Second Edition (Princeton Field Guides)**

Nests, Eggs, and Nestlings of North American Birds, Second Edition provides a thorough, species-by-species guide to the breeding biology of the birds of North America. Some 670 breeding species are described in full, covering the birds of a vast area, from the Arctic to the southern boundary of the continental United States. The main text presents complete basic information on the breeding cycle of each species, summarized in a natural sequence: nest habitat, nest-site, nest construction, breeding season, eggs, incubation and nesting and nestling period. More than 700 color and line illustrations provide valuable information on the identification of the nests, eggs, and nestlings of 597 sp

## Introducing the Reformed Faith: Biblical Revelation, Christian Tradition, Contemporary Significance

In this book, Donald McKim examines Reformed beliefs on sixteen theological topics, including Scripture, the Trinity, sin, salvation, the person of Jesus, and Baptism. He also discusses distinctive emphases of the Reformed faith and shows how Reformed beliefs relate to the broader ecumenical family

## The Moonlit Garden

Lilly Kaiser had come to terms with her solitary, uncomplicated life after becoming a young widow. So when a stranger delivers an old violin to her Berlin antiques shop and tells Lilly it belongs to her, she's completely bewildered. Why should she be the one to inherit such an exquisite inst

## Heritage That Hurts: Tourists in the Memoriscapes of September 11 (Heritage, Tourism & Community)

Memorial sites, sites of "dark tourism," are vernacular spaces that are continuously negotiated, constructed, and reconstructed into meaningful places. Using the locale of the 9/11 tragedy, Joy Sather-Wagstaff explores the constructive role played by tourists in understanding social

## The Better Brain Book: The Best Tool for Improving Memory and Sharpness and Preventing Aging of the Brain

From the author of the #1 New York Times bestseller Grain Brain and New York Times bestseller Brain Maker... Loss of memory is not a natural part of aging—and this book explains why. Celebrated neurologist David Perlmutter reveals how everyday memory-loss—misplacing ca

What others say about this ebook:

**Review 1:**

I was expecting a guide to bird nests. There are comprehensive color plates of nestlings and eggs, but none of nests. Written descriptions are helpful, but this is not what I was looking for.

**Review 2:**

Great book!

**Review 3:**

As listed

**Review 4:**

Very good--informative.

**Review 5:**

This is a very good book. Probably the best on the subject. However I would agree with other reviewers about egg size. Why not add a few pages and make them all life size. I would also point out that the information is a bit dated. I would love to see a third edition. I think I should also mention this is not a 2005 edition as the item description suggests. It is a reprint of the 1997 edition. So it is already 18 years old. That is ancient in terms of annual taxonomic updates. In spite of these short comings I still the best reference on the subject I have found. Update the information with current nomenclature and all life size eggs and this easily a five star product.
